"THE INTENTIONAL RELATIONSHIPS WORKSHOP"

Training Description:

Relationships are too important to leave to chance. Educational success and social-emotional development blossom when caring adults and supportive peers are present in young people's lives. Extensive research has documented relationships as the roots of social and emotional development for youth. Yet many professionals who work directly with youth - especially youth from marginalized communities - face challenges in forming well-rounded relationships that connect with the diverse needs of youth. This workshop helps participants learn to intentionally build developmental relationships with young people to powerfully benefit youth learning and development.
