About the Summer Activity Guides

Summers are for fun and engaged learning. In 2020 as the impact of the pandemic is widely felt, summer opportunities will be different for young people, families, and afterschool and summer program staff. The Summer Activity Guides were developed to help engage youth with supportive adults in a range of places.

The activities and resources in the Summer Activity Guides are intentionally designed to support youth-serving summer programs in driving consistent engagement and providing ongoing opportunities for youth skill-building and emotional well-being. In addition to the activities for youth, supplemental materials will be available to support professional development and enhance family engagement.

The Guides include 150 original activities and challenges organized by four different age groups (5-9) (10-12) (13-15) (16-18). The activities are adaptable for in-person and virtual instruction, or a hybrid of both, as well as sent as take-home packets.

All activities should be safely executed and aligned with state and local health guidelines.

Summer Activity Guide by Georgia Statewide Afterschool Network and the 50 State Afterschool Network is licensed under CC BY-SA 4.0. To view a copy of this license, visit <https://creativecommons.org/licenses/by-sa/4.0>

Wants & Needs

ACTIVITY DESCRIPTION

In this social studies activity, youth will plan a trip to a new planet and identify the items they will bring with them. As part of the 'Exploring My World' unit, this activity is designed to help youth distinguish between the things they want and the things they need. This activity supports the development of critical thinking, social awareness, responsible decision-making skills, and global citizenship.

SUPPLIES

- Wants and Needs Cards
- Scissors

STEPS

- We have just identified a new planet and we will all be going there to start up a new community. The new planet doesn't have a name yet. What should we name it? What are some reasons that we may need to go to a new planet?
- Before we leave for the new planet, think about some of the things that you will **want** and **need** in your new community.
- Cut up the Wants and Needs Cards and spread them out in front of you.
- You have 24 cards but you can only bring 16 things with you to the new planet. Look at the things on your cards. What 8 things will you not bring? Set those cards aside.
- Oh no! We just found out that space is limited on our trip to our new planet. You can only take 12 items with you from your cards. What 4 things will you not bring? Set those cards aside.
- Oh no! We just found out that there has been an emergency announcement and there is even less space for us to bring things with us. You can only take 8 items with you from the cards. Think about what is most important for surviving on this new planet. What 4 things will you not bring? Set those cards aside.

ADAPTATIONS

- If you are delivering the activity in person, organize the youth in pairs and have them work with their partners to negotiate the items they want to bring on the journey.

EXTENSIONS

- Discuss other scenarios where youth distinguish between wants and needs. For example, have youth brainstorm what they can buy with five dollars to buy things they need to survive.
- Use PBS Media's 'Needs vs. Wants' lesson to consider the relationship between the things we buy and happiness:
https://www.pbslearningmedia.org/resource/lpsc10.sci.life.lp_needwant/needs-vs-wants/

QUESTIONS FOR DISCUSSION

- Imagine the new planet that we will be travelling to.
 - What does it look like?
 - How long will it take to travel there?
 - Do other people live on the planet?
 - How is it similar to or different from planet Earth?
- Which items were easy to get rid of first? Why?
- What were some of the items that were harder to get rid of? Why?
- What is the difference between something you want and something you need?
- What do we need for survival?
- You left some things behind because you did not need them. Did some of those things that you left make you happy? Is happiness a want or a need?

The Rights Balloon

ACTIVITY DESCRIPTION

In this social studies activity, youth will be challenged to make decisions about which rights they are willing to give up. As part of the 'Exploring My World' unit, this activity is designed to help youth understand the difference between rights and wants and to prioritize various rights in their own lives. This activity supports the development of critical thinking, social awareness, responsible decision-making skills, and global citizenship.

SUPPLIES

- The Rights Balloon Handout
- A pen or pencil

STEPS

- In this activity we are going to explore some of the things that we want to have and some of the things that we need. What are some of the things that you need to survive? What are some of the things you enjoy having in your life?
- A 'right' is something that every person is entitled to (allowed to have) in order for their survival and to have a good life.
- Look at the rights listed on your Rights Balloon Handout.
- Why are each of these rights important?
- Imagine that you are in this hot air balloon floating through the air. What does it look like? How does it feel? Where are you going?
- You have 12 rights on board with you. Look at the rights listed on the handout. Each one of these rights weighs 1 pound.
- All of a sudden, your balloon begins to drop. To stop the balloon from going down, you need to throw 3 of your rights to the ground. Which 3 of these rights are you willing to give up? Put an X through them.
- Your balloon is safe for now. What can you see from the balloon? Are you enjoying the ride?
- Oh no! Your balloon started going down again. You must select 3 more rights to throw overboard. Which of these rights are you willing to give up? Put an X through them.

ADAPTATIONS

- If you are delivering the activity in person, organize the youth in pairs and have them work with their partners to negotiate the items to throw overboard with a partner.
- If you are delivering this activity virtually, digitally or via take-home packets, encourage adults or siblings to engage alongside youth so that they have someone to discuss their responses and decisions with.

EXTENSIONS

- Check out Teaching Tolerance for more rights-based activities on the topics of bullying, bias and race and ethnicity, available at: <https://www.tolerance.org/learning-plan/combschool>

QUESTIONS FOR DISCUSSION

- Look at each of the rights. Why are they important?
- Which rights were easiest to give up?
- Which were the most difficult?
- What is the difference between the things you need (rights) and the things you want?
- Are there any rights so basic you would never give them up? Which ones and why?
- Do all people have the same rights?
- Why might people not have the same rights?
- Can people lose rights? How?

Comparing Classrooms

ACTIVITY DESCRIPTION

In this social studies and literacy activity, youth will watch videos of two boys from different countries and compare and contrast their experiences at school. As part of the 'Exploring My World' unit, this activity is designed to help youth understand how education and opportunities differ around the world. This activity supports the development of literacy skills, critical thinking, social awareness and global citizenship.

SUPPLIES

- Education Around the World Handout
- Comparing Classrooms Handout
- Pen or pencil

STEPS

- Today you will be learning about two classrooms in different parts of the world, a classroom in Kenya and a classroom in Japan.
- First, watch this video about Ken, a boy Japan and his first day of school:
https://www.pbslearningmedia.org/resource/vt107_la_rv_text_japanclass/a-look-at-a-japanese-classroom/ As you are watching the video, try to remember a few things about Ken's classroom.
- After watching the video, use the Education Around the World Handout to fill out what you remember about Ken's classroom.
- Now, watch this video about Joab, a young boy from Kenya:
https://www.pbslearningmedia.org/asset/vt107_vid_kenyaclas/s/ As you are watching the video, try to remember a few things about Joab's classroom.
- After watching that video, use the handout to fill out what you remember about Joab's classroom.
- Ken's classroom and Joab's classroom are alike in some ways and different in other ways. Use the Comparing Classrooms Handout to show the similarities and differences.

ADAPTATIONS

- If you are delivering the activity in person, complete the handouts together as a group by discussing the observations of the classrooms and then the similarities and differences. You can use the 'share my screen' function for virtual delivery.
- If you are delivering the activity via take-home packets or digitally, encourage parents or caregivers to be involved so that youth can discuss the questions and their observations with someone.

EXTENSIONS

- Make a video of your learning experience. Share it with your peers. How are your learning experiences similar and different?
- Time for School is a documentary that follows seven children in seven countries in their efforts to get basic education. Watch and discuss:
<https://www.thirteen.org/programs/time-for-school/>

QUESTIONS FOR DISCUSSION

- How are their classrooms similar?
- How are they different?
- What do you think Ken likes about his school? What do you think Joab likes about his?
- How are Ken's or Joab's classrooms similar to your classroom? How are they different?
- What do you like about Ken's and Joab's schools?
- If you could make a video about your education to share, what would you put in it?
- Why is it important to learn about how people in other parts of the world live?

CREDITS: PBS Learning Media's 'Comparing Education Around the World' available at https://www.pbslearningmedia.org/resource/vt107_la_rv_text_lpcomp_ed/comparing-education-around-the-world/

Education Around the World Handout

Instructions: Use this handout to take notes on what you learned about Ken and Joab's classrooms.

	Ken from Japan	Joab from Kenya
Getting to school		
Language spoken in school		
Class size		
How the day starts		
Books and supplies for students		
Teachers/ Principals		
Other		

Comparing the Classrooms Handout

Instructions: There are some ways in which Ken's classroom in Japan and Joab's classroom in Kenya are alike and some ways in which they are different. Complete the Venn diagram below to show the similarities and differences between the two classrooms.

Ken's Classroom

Joab's Classroom

My Passport

CHALLENGE DESCRIPTION

In this social studies, literacy and art challenge, youth will make passports and use them to travel virtually to other countries using the other activities within this unit. As part of the 'Exploring My World' unit, this challenge is designed to introduce youth to other countries and their cultures. This challenge encourages creativity, social awareness and global citizenship.

SUPPLIES

- Markers, colored pencils or crayons
- Stapler or glue
- My Passport Handout (or a blank piece of paper if you do not have a copy of the handout)
- Instructions and supplies for 4 activities included in this Unit (Australia, China, India and Mexico)

STEPS

- To travel to another country, you may need a passport. A passport is a document, shaped like a book, that has your name, age and other important information in it. Every time you visit a different country you get an official stamp in one of its pages from that country.
- In this challenge, you will create a passport. You will use this passport to "visit" other countries. There are four countries (Australia, China, India and Mexico) with unique activities you can complete. When you complete the activity, write down the name of the country and decorate the page with pictures or facts about that country, like their flag.
- On the My Passport Handout, cut out the squares along the dotted lines. (If you do not have a copy of the handout, you can draw the handout on a blank piece of paper.)
- Each page is numbered in the bottom corner. Put the pages in order, starting with 1. Staple or glue the pieces of paper on the left-hand side like a book.
- On page 1, write your first name on the line. On page 2, fill in your personal information.
- Now you're ready to start traveling! Take a look at these activities and pick the first one you would like to try (directions for the activities are provided on the activity sheets).
 - Australia – make and play a didgeridoo
 - China – make a Chinese lantern
 - India – try yoga
 - Mexico – bake Day of the Dead bread

ADAPTATIONS

- If you are delivering the activity in person, organize the youth in pairs and have them work with their partners to discuss what they learned about the countries.
- If you are delivering the activity virtually or in-person, create opportunities for youth to share and discuss what they learned about the countries they visited.
- This activity may bring up questions about immigration and citizenship. As appropriate for your young people, you should engage in this conversation and address their feelings and questions. For more resources on these topics visit: <https://www.tolerance.org>.

EXTENSIONS

- Add more pages to your passport, and go on more virtual field trips. Here is a great list of virtual field trips to choose from, including zoos, natural wonders, and even space: <https://flashpackingfamily.com/virtual-travel-with-kids/>
- Complete the 'Create a Visitor's Guide' activity in this unit. A visitor's guide is a book or brochure that describes the country, including its weather, geography, food, people and art. Be sure to draw pictures so someone knows what it looks like to go there.
- Create a bucket list. A bucket list is all the places you want to go or things you want to try in your lifetime. This could be going to Egypt to see the pyramids or learning how to play the guitar. Make a list of the Top 10 items on your bucket list. Share this list with a friend or family member.

My Passport Handout

Instructions: Cut out the squares and put the pages in order. Staple or glue the pieces of paper on the left-hand side, like a book. Fill in pages 1 and 2 with your information. Each time you visit a different country, fill in the page.

Day of the Dead Bread

ACTIVITY DESCRIPTION

In this social studies and culinary activity, youth will learn about Mexico's Day of the Dead celebration and make Day of the Dead bread. As part of the 'Exploring My World' unit, this activity is designed to introduce youth to other culture's holiday traditions and foods. This activity encourages creativity, social awareness, and global citizenship.

SUPPLIES

- 1 can of refrigerated crescent dinner rolls
- ¼ cup orange juice
- ¼ cup milk
- ½ cup sugar
- ¼ cup flour
- Oven
- Baking sheet
- Small bowl
- Spoon, fork and butter knife
- Rolling pin and basting or pastry brush (optional)
- Day of the Dead Bread Handout

STEPS

- [Note: this activity uses an oven, please ask an adult to help.]
- Día de los Muertos, or Day of the Dead, is a holiday in Mexico where people celebrate the memory of their ancestors and those who have died. Pan de Muerto (Spanish for "bread of the dead") is a sweet bread baked on this holiday. Typically, the bread is decorated with bones and skulls made from dough to represent the dead.
- In this activity, you will make Pan de Muerto using very simple ingredients.
- First, preheat the oven to 350 degrees. Open the can of crescent rolls and unroll the crescent dough. Set aside 2 pieces of the dough (these will be used for bones later).
- Use a ¼ cup of flour to cover your rolling pin and table (if you do not have a rolling pin, you can use your hands). Gently roll the dough together. Use your hands to shape the dough into a smooth round ball.
- In a bowl, add the orange juice and milk. Mix together with a spoon or fork.
- Grab the two pieces of crescent roll you set aside earlier. With a butter knife, cut one piece of crescent roll into 4 pieces (these will be the bones). With the other piece, form a ball with your hands (this will be the skull). Add the bones and skull to the top of your bread. Brush with the orange/milk mixture. Sprinkle entire bread with sugar.
- Bake for 10-15 minutes until golden brown. Enjoy!

ADAPTATIONS

- If you are delivering the activity virtually, lead the group in a follow-up discussion using the questions for discussion after they have made their bread.
- If you are delivering the activity via take-home packets or digitally, post a video of a staff member making the bread to show each step.

EXTENSIONS

- During the Day of the Dead Festivities, skeletons and skulls are everywhere. Make your own colorful skull using materials you find in your home (paper, markers, paint or playdough), like the ones found here: <https://www.cbc.ca/kidscbc2/the-feed/day-of-the-dead-and-the-sugar-skull>
- Mexican Papel Picado are colorful sheets of paper that have been cut with beautiful designs. Make your own Papel Picado with these instructions: <https://www.deepspacesparkle.com/how-to-make-a-papel-picado/>

QUESTIONS FOR DISCUSSION

- How is Day of the Dead similar or different from the holidays and traditions you celebrate?
- How do you remember and celebrate the people you love who have died?
- Why is it important to learn about other culture's traditions and holidays?

CREDITS: Que Rica Vida 'Easy Pan de Muerto' available at: <https://www.quericavida.com/recipes/easy-pan-de-muerto/>

Day of the Dead Bread Handout

Step 1: Preheat the oven to 350 degrees. Open the can of crescent rolls and unroll the crescent dough. Set aside 2 pieces of the dough (these will be used for bones later).

Step 2: Use a ¼ cup of flour to cover your rolling pin and table (if you do not have a rolling pin, you can use your hands). Gently roll the dough together. Use your hands to shape the dough into a smooth round ball.

Step 3: In a bowl, add the orange juice and milk. Mix together with a spoon or fork.

Step 4: Grab the two pieces of crescent roll you set aside earlier. With a butter knife, cut one piece of crescent roll into 4 pieces (these will be the bones). With the other piece, form a ball with your hands (this will be the skull). Add the bones and skull to the top of your bread.

Step 5: Brush the top of the bread with the orange/milk mixture. Sprinkle entire bread with sugar.

Step 6: Bake for 10-15 minutes until golden brown. Enjoy!

Australian Didgeridoo

ACTIVITY DESCRIPTION

In this social studies and art activity, youth will create a didgeridoo, a musical instrument from Australia. As part of the 'Exploring My World' unit, this activity is designed to introduce youth to other culture's music, art forms and symbols. This activity encourages creativity, social awareness and global citizenship.

SUPPLIES

- Recycled tube from a roll of wrapping paper, roll of aluminum foil, roll of paper towel, or a tube used by the post office to mail something
- Paint, markers or crayons

STEPS

- The didgeridoo was made by the Aboriginal people of Australia and is one of the oldest musical instruments in the world. It is made from a hollow wooden tube, and makes a low pitch sound when you blow into it. Here is a video of how a didgeridoo is played: <https://www.youtube.com/watch?v=JEgXAu30yuY>
- The Aboriginal people decorate their didgeridoos by painting symbols and pictures that are important to them. Together, these symbols can tell a story. Here is a sample of their symbols: <https://art-educ4kids.weebly.com/aboriginal-art-and-patterning.html>
- In this activity, you will make and decorate your own didgeridoo. Create your own symbols (ex. a school or dog), and tell a story on your tube. For example, it could be a true story about your or your family or it could be a story you make up. Use markers, crayons or paint to decorate your tube with your symbols.
- Once your tube is dry, let's try to make music like a didgeridoo. Sit on the ground cross-legged and put one end of the tube in your mouth and let the other end rest on the ground. With your lips together, blow into your didgeridoo.
- Try to make different sounds using your didgeridoo.

ADAPTATIONS

- If you are delivering the activity virtually, send home a kit with the activity supplies so that youth are all able to build their instruments with you.
- If you are delivering the activity in-person, put youth in small groups or pairs. Have them discuss which symbols they used and the story it tells.

EXTENSIONS

- The Aboriginal people use trees that have been hollowed out by termites to make their didgeridoos. Watch this video from PBS Kids to learn about how termites help make this musical instrument: https://www.youtube.com/watch?v=w22kSe_lzsU
- Create your own instrument out of materials you have available at home. You could make a guitar using string and an old shoe box, or a tambourine using paper plates.
- In Australia, the didgeridoo is played with chanting, singing and dancing. Make up a dance or song to play with your didgeridoo.

QUESTIONS FOR DISCUSSION

- Sometimes we use pictures, not words, to communicate (ex. a smiley face or other emoji). What are some of the symbols used in your community to communicate?
- How is the didgeridoo the same as some of the instruments you have played or seen? How is it different?
- Why is it important to learn about other culture's music?
- What would it be like if we all played the same kind of music?

CREDITS: Kiwico 'Make a Didgeridoo' available at: <https://www.kiwico.com/diy/Arts-and-Crafts-Ideas/1/project/Make-a-Didgeridoo/1668>

Strike a Pose

ACTIVITY DESCRIPTION

In this physical activity, youth will learn about and practice yoga. As part of the 'Exploring My World' unit, this physical activity is designed to introduce youth to yoga, which has been shown to reduce stress in children. This activity supports the development of physical literacy and motor skills and mindfulness.

SUPPLIES

- Copy of the 'Healthy Living: Yoga for Kids: Sample Standing Pose Routine' (pages 2 – 6) available here: <https://www.uaex.edu/publications/PDF/FSFCS24.pdf>

STEPS

- Yoga started in India over 5,000 years ago. Yoga includes breathing, exercise and focusing on what you feel in your body, head and around you. A person who does yoga moves from one pose to another. Practicing yoga is good for the mind and body, and it helps us develop strength and flexibility.
- In this activity, you will learn about and practice a few beginner yoga poses using the printout 'Healthy Living: Yoga for Kids: Sample Standing Pose Routine'.
- First, find a place in your home or outside that is flat and quiet. It should be a place where you would be comfortable sitting or putting your hands on the ground. If you like, you can lay down a mat or towel.
- Select a pose from the Yoga Handout. When you are doing your pose, make sure to focus on your breath. You should be taking long inhales through your nose and long exhales through your mouth. For each pose, you will stay in that position for 3 or 4 breaths, or 10 to 15 seconds. To practice your breathing, follow along with this video: <https://www.youtube.com/watch?v=2PcCmxEW5WA>
- [Note: you don't have to do the poses just like the pictures. Listen to your body. If the pose hurts, then make sure to stop. Stretch as far as you are comfortable without it hurting.]
- Once you finish a pose, move your body into the next pose. Try to do all of the poses on the handout.

ADAPTATIONS

- If you are delivering the activity virtually, lead youth through each of the poses. Tell them how to do the pose correctly, and encourage youth to follow along with you.
- If you are delivering the activity in person, organize the youth in small groups and have them work through the poses together.
- Youth with different abilities should be encouraged to participate. Here is a great resource on adaptive yoga: <https://www.doyou.com/7-tips-for-teaching-yoga-for-kids-with-special-needs/>

EXTENSIONS

- If you liked yoga and want to do more, then try out Cosmic Kids Yoga Channel on YouTube: <https://www.youtube.com/user/CosmicKidsYoga>.
- Breathing is important in yoga. There are many different types of breath. Look up different deep breathing techniques such as 'pursed lip breathing', 'belly breathing', or 'humming breathing'. Try out these techniques and see which work best for you.

QUESTIONS FOR DISCUSSION

- How did you feel when you were doing the yoga poses? What was challenging? What was easy?
- Was there a difference between how you felt before yoga and how you felt after?
- When you were doing your pose, what was it like to focus on your breath? Did your mind ever wander?
- Do you think yoga is something you will keep doing?

CREDITS: University of Arkansas 'Healthy Living: Yoga for Kids' available at <https://www.uaex.edu/publications/PDF/FSFCS24.pdf>

Chinese Lantern

ACTIVITY DESCRIPTION

In this social studies and art activity, youth will create a Chinese Lantern in celebration of the Chinese New Year. As part of the 'Exploring My World' unit, this activity is designed to introduce youth to other culture's holiday traditions. This activity encourages creativity, social awareness and global citizenship.

SUPPLIES

- 3 pieces of construction paper in different colors
- Pencil
- Ruler
- Scissors
- Glue, tape or stapler
- Optional: stickers, markers, crayons and glitter
- Chinese Lantern Handout

STEPS

- Every year around January, the Chinese celebrate the Chinese New Year to honor a year of hard work and to wish for a lucky coming year. At the end of the Chinese New Year, there is a beautiful display of lanterns at a Lantern Festival. In this activity, we will make a Chinese lantern.
- Take one piece of construction paper and fold it in half lengthwise (see Step 1 of the handout).
- Draw a line lengthwise on the paper about 1 inch from top of the unfolded edge. This line marks where you should stop cutting.
- Cut lines through the fold to your "do not cut line". The lines should be about 1 inch apart.
- Roll the second piece of construction paper lengthwise into a tube.
- Unfold the first piece of paper. Insert the tube inside. Tape the edges of the paper together where they meet. The middle of the lantern should pop out at the fold to the shape of a lantern.
- Take another piece of construction paper and cut a 1-inch-wide strip to use for your lantern's handle. Use a stapler, tape or glue to add your handle to the top of the lantern.
- If you like, you can add decorations to your lantern using stickers, markers, crayons or glitter.

ADAPTATIONS

- If you are delivering the activity virtually, send home a kit with the activity supplies so that youth are all able to participate alongside you.
- If you are delivering the activity via take-home packets or digitally, encourage youth to upload photos of their lantern on your organization's online platform or social media.

EXTENSIONS

- Make more lanterns using the same or different colored paper. Hang them around a room in your home.
- Continue the celebration of the Chinese New Year by making dragons with egg cartons. Here are the instructions: <https://iheartcraftythings.com/egg-carton-dragon-craft.html>
- According to the Chinese calendar, the year you were born can determine the kind of person you will become. Each year is assigned a different animal. What year were you born? Find out your Chinese animal here: <https://kids.nationalgeographic.com/explore/chinese-horoscopes/>

QUESTIONS FOR DISCUSSION

- What are some of the traditions or activities you do for the New Year? Why are they important to you?
- The Chinese believe the lanterns bring good luck. Is there anything you or a loved one believes brings good luck?
- Why is it important to learn about other culture's traditions and holidays?
- What would it be like if we all celebrated the same holidays and had the same traditions?

CREDITS: China Family Adventure 'How to Make Chinese Lanterns' available at: <https://www.china-family-adventure.com/how-to-make-chinese-lanterns.html>

Chinese Lantern Handout

Step 1: Take one piece of construction paper and fold it in half lengthwise. Draw a line lengthwise on the paper about 1 inch from top of the unfolded edge. This line marks where you should stop cutting.

Step 2: Cut lines through the fold to your “do not cut line.” The lines should be about 1 inch apart.

Step 3: Roll the second piece of construction paper lengthwise into a tube.

Step 4: Unfold the first piece of paper. Insert the tube inside. Tape the edges of the paper together where they meet. The middle of the lantern should pop out at the fold to the shape

Step 5: Take another piece of construction paper and cut a 1-inch-wide strip to use for your lantern’s handle. Use a stapler, tape or glue to add your handle to the top of the lantern.

Country Scavenger Hunt

CHALLENGE DESCRIPTION

In this social studies and literacy challenge, youth will engage in a scavenger hunt where they learn about a country they have selected. As part of the 'Exploring My World' unit, this challenge is designed to help youth learn about world geography and cultures. This activity supports the development of literacy skills, social awareness, and global citizenship.

SUPPLIES

- Scavenger Hunt worksheet available here: <https://www.globetrottinkids.com/wp-content/uploads/2020/03/Globe-Trottin-Kids-Scavenger-Hunt.pdf>
- Writing utensil
- Access to the Globe Trottin' Kids website: <https://www.globetrottinkids.com/>

STEPS

- Hello explorers! Your challenge is to do online scavenger hunt to explore a country that you are interested in. You will also get to explore a website with fun activities that you can use for learning about our diverse world.
- Print out the Scavenger Hunt worksheet: <https://www.globetrottinkids.com/wp-content/uploads/2020/03/Globe-Trottin-Kids-Scavenger-Hunt.pdf>
- Then, click here for the starting point of your scavenger hunt: www.globetrottinkids.com.
- Scroll down to the world map and select a country that you are interested in. Once you have selected a country, follow the instructions on the worksheet.

ADAPTATIONS

- If you are delivering the challenge in person or virtually, come back together during the challenge or at the end to share what they are learning about their countries.
- If you are delivering the activity via take-home packets or digitally, have youth post the country they selected and a few things they learned about their country on your program platform or Facebook page.

EXTENSIONS

- Use the 'Buttons to Explore Further' at the bottom of your country's page to learn more interesting facts. What is your favorite animal in this country? What is a popular sport?
- Complete the challenge for your country, which you will also find at the bottom of your country's page.
- Host an around-the-world fair where youth create something from the country they selected (like the flag, an art project, a dance or a dish) and teach their peers about their country.
- Try the 'Create a Visitor's Guide' activity in this unit to make a brochure for the country you selected.
- There is a lot to know about your own town or city. Create a visitor's guide to teach others about your community. What animals do you notice? How do people get around? What sports or games do kids like to play in your community?

Create a Visitor's Guide

ACTIVITY DESCRIPTION

In this social studies, art and literacy activity, youth will research a country and create a visitor guide brochure. This activity can build off of the 'Country Scavenger Hunt' or be implemented as a standalone activity. As part of the 'Exploring My World' unit, this activity supports the development of creativity, social awareness and global citizenship.

SUPPLIES

- White or colored paper
- Pen or pencil
- Colored pencils/markers/crayons
- Access to the Globe Trottin' Kids website: <https://www.globetrottinkids.com/>

STEPS

- In this activity you will research a country and then create a visitor's guide brochure for your selected country. A visitor guide is like an advertisement to teach someone about a country and convince them to visit that country.
- If you completed the 'Country Scavenger Hunt' you can use the same country you selected for that challenge or you can pick a country to research here: <https://www.globetrottinkids.com/>. Scroll down to bottom.
- Pick information to share in your visitor's guide, like:
 - What is the language?
 - What is the currency?
 - What are popular landmarks?
 - What types of food are eaten?
- Once you have all of the information for your visitor guide, fold a blank piece of paper into thirds to create your brochure.
- Create a cover page for your brochure and add all of your selected information to the other sections.
- Decorate your brochure with colors and images that are relevant to your country.

ADAPTATIONS

- If facilitating virtually, youth can create their brochure on a computer using a Word document or create a visitor's guide with a PowerPoint presentation.
- If facilitating virtually or in-person, create time for youth to share their brochures with their peers. Allow time for youth to ask questions and engage in discussion about the different countries and what they learned.

EXTENSIONS

- Make it a competition! After you have seen the brochures from all of your peers, vote on which country you would most like to visit. The country with the most votes wins.
- Create a video version of your visitor's guide by using imagery and voiceover, or by recording yourself talking about all of the highlights of your selected country.
- Create a Bingo game where you must find out facts about countries for each square. Compete with peers to see who can get Bingo first.

QUESTIONS FOR DISCUSSION

- What did you learn about the country you selected?
- What are the most important pieces of information you would want to know when visiting somewhere new?
- What was it like to make a guide for somewhere you have not visited?
- What kind of information would a visitor guide for your city or community contain?

The 50 State Afterschool Network

The Summer Activity Guide has been developed for the 50 State Afterschool Network with leadership from the Georgia Statewide Afterschool Network to engage and support children and youth nationwide.

In each state, the afterschool network is broadening opportunities for youth. Seeking equitable outcomes for underserved children to succeed in school and future jobs, a statewide afterschool network brings together cross-sector leaders with a common vision and coordinated strategy to advance quality afterschool and summer learning programs
